

## Mark Park

Founder & President, Jibbio.com

Mark is an entrepreneur who has been fortunate to experience over 20 years of business excellence in highly competitive internet, telecommunications, and international trade markets.

Mark was born in Toronto, Canada and raised in a household with unique facets- a mother who had once been crowned “Miss South Korea,” a father who had been a Captain in the South Korean military, and an older brother with special needs (autism).

Mark was the younger brother by age, but older brother by role. The responsibilities in caring for his brother and losing their mother to cancer when Mark was 21 instilled positive attributes that would mold his character into the admirable person he is today.

Mark is community-driven, kind, and has always expressed gratitude by helping others.

As of May 27, 2021, Mark achieved his third personal milestone by completing his **200th consecutive weekly volunteer shift** at one of Canada’s largest food banks, the [Daily Bread Food Bank](#).
